SUMMARY

Computer Science Engineering student with experience building web applications using Go, Java, JavaScript, ReactJS, HTML, CSS, Tailwind CSS, MySQL, and Git. Focused on backend development, problem-solving, and building practical software projects.

EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV) | 2024-2028

Bachelor of Technology (B.Tech)
Computer Science Engineering

Higher Secondary (Class XII)

S.T.V.M. Higher Secondary School Keolari, Seoni
MP Board | 2023

PROJECTS

Notes App | React, Tailwind CSS

- Built a note-taking application with create, edit, and delete functionality.
- Managed application state using React Hooks.
- Designed a responsive and user-friendly interface.

Kanban Board | HTML, CSS, JavaScript

- Developed a Kanban board application for organizing and tracking tasks across multiple workflow stages.
- Implemented drag-and-drop functionality for seamless task management.
- Strengthened understanding of JavaScript DOM manipulation.

Snake Game | HTML, CSS, JavaScript

- Developed a browser-based Snake Game with real-time movement and collision detection.
- Implemented score tracking, game-over logic, and keyboard controls.
- Strengthened understanding of JavaScript game loops, event handling, and DOM manipulation.

ACHIEVEMENTS

- Selected for GirlScript Summer of Code (GSSoC).
- Project shortlisted for the college-level round of Smart India Hackathon (SIH) 2025.

TECHNICAL SKILLS

Languages:

Go, Java, C, JavaScript

Frontend:

HTML, CSS, ReactJS, Tailwind CSS

Database:

MySQL

Tools & Technologies:

Git, GitHub, VS Code
